These Truck Tires Help Solve Transportation Problems

THE swift and economical moving of merchandise has received wonderful impetus from the development of Goodyear Truck Tires.

The delay and cost of older forms of transportation is being offset by the increased efficiency of the more modern truck-transportation.

Truck range has been broadened, truck speed has been safely increased, operating cost both for tires and fuel has been decreased, time off for repairs has been reduced.

These are the results of greater reliability, longer mileage, increased resiliency, as built into truck tires by Goodyear. That Goodyear Truck Tires do possuss these qualities is proved by milenge records and testimonials from truck operators, and by the fact that Goodyears outsell any other

So strong is the proof of Goodyear Truck. The quality that we are able to give a guarantee of their perfection unoualified as to time or milesage.

All Goodyear Solid Truck Tires are gustranteed as perfect when applied to your truch. If, at any time during the life of the tire, no matter how many miles or how many years it has gone, a fault of material or workmanship shows, we accept the responsi-

The right truck tires may make a difference of several bundred dollars a year in your handing costs. It will pay you to have the ndvice of a Goodyear Truck Tire man. No obligation. Phone, were or write the nearest branch or Goodyear Truck Tire Service Station.
